

CHINA OTTI LTD

EXECUTIVE COMPANY PROFILE

Protect People. Manage Risk. Secure Assets.

Experience. Judgment. Professional Control.

Professional security - whether protecting a private residence, a family estate or a visiting executive - requires more than a visible presence. It requires sound judgment, preparation, situational awareness and the ability to respond appropriately when circumstances change.

WHO WE ARE

A UK-Based Specialist Security & Protection Company.

China Otti Ltd is one of the most highly respected and dedicated residential security companies in the UK today, specialising in private and estate security for clients across Greater Manchester and Cheshire, and nationwide. Our focus is the protection of private residences, families and high-end properties.

The company also operates as a subcontractor for security assignments, supported by highly trained and licensed security officers on standby. We deliver top-tier services with professional control, clear standards and a strong record of client satisfaction.
