Book a free discovery call

The Zoho and Begin logos are registered trademarks of Zoho Corporation.

We've partnered with Begin by Zoho — making us a great choice to deliver on process and configuration of Begin within your business. Book a free discovery call or get in touch to discuss how we can help.

What is Begin by Zoho?

Begin by Zoho is an easy-to-use CRM (Customer Relationship Management) software, built for small businesses. It gives businesses a simple way to manage leads, customers, sales pipelines and customer interactions in one place, helping teams stay organised, follow up effectively and grow their business.

Why have we partnered with Zoho?

We help businesses improve how they work — and a CRM is often a big part of that. Begin gives us a practical, accessible CRM platform we can recommend, configure and implement, backed by dedicated partner training and expert product knowledge.

How can we help?

We'll talk you through what Begin can do for your business, show you a live demo personalised to your needs, then support you end-to-end — from onboarding and process mapping through to configuration, testing, training and go-live.

- CRM setup
- Pipeline design
- Workflow/process design
- Configuration and customisation
- Data migration
- Automation
- Templates
- Integrations
- User setup/training
- Ongoing optimisation/support

Getting started

New to Begin?

Sign up for a Begin account (including a 14-day free trial) [here](#). This link is configured to Artiio and will map your account to our partnership automatically.

Already using Begin?

No problem — map your existing account to our partnership using code **ARTIIO**.

What comes next?

Once your account is mapped to our partnership, we can offer initial advice on features and setup during a free 45-minute discovery call.

For a detailed, end-to-end implementation project, we offer packages and rates tailored to your needs — get in touch to discuss what that looks like for your business.

Why choose Artiio?

Artiio is a small business, with a personalised service — we support you throughout the journey of implementing your CRM and process change.

We help you solve real operational problems — not just diagnose them. We start with protected, focused time to work through what's actually going on, then we deliver on agreed outcomes. We stay, we build, we implement.
