MEDICAL AESTHETICS & SKIN HEALTH

SKIN HEALTH & MEDICAL-GRADE FACIALS

RESULTS-DRIVEN FACIALS FOR EVERY SKIN JOURNEY

At The Modern Skin Company, we combine advanced technology, medical expertise and a personalized approach to help you look refreshed, healthy and confidently yourself, at every stage of life.

OBSERV 520X SKIN ANALYSIS

BELAMD

belamD combines six advanced technologies in one fully customizable treatment to cleanse, exfoliate, extract, hydrate, infuse and rejuvenate the skin. Diamond Microdermabrasion, Hydrogen Water Cleansing, Serum Infusion, Electroporation and Microcurrent Muscle Stimulation Microdermabrasion,

OUR FACIALS

A customized facial featuring deep cleansing, exfoliation, targeted serums and a HydroJelly mask. Designed to hydrate, balance and restore a healthy, radiant glow.

The Modern Renewal Facial

A results-focused facial targeting dullness, texture and early signs of aging. Customized exfoliation, active serums and a HydroJelly mask leave skin smoother, brighter and refreshed.

The Modern Luxe Facial

Our ultimate facial experience featuring dermaplaning, customized skincare, intensive hydration, a HydroJelly mask and extended massage. Leaves skin exceptionally smooth, plump and luminous.

The Modern Acne Facial

Designed for congested and breakout-prone skin. Deep cleansing, exfoliation, extractions and a calming HydroJelly mask help clarify pores, soothe and rebalance the complexion.

PROFESSIONAL PEELS

Vivier Peel

A professional peel designed to improve dullness, uneven tone and texture, revealing smoother, brighter and more radiant-looking skin.

Jessner Peel

A corrective peel targeting acne, pigmentation, sun damage and uneven texture for clearer, smoother and more even-looking skin.

ADVANCED TECHNOLOGIES

LASER RESURFACING & REJUVENATION

RENEW. REFINE . REVEAL . HEALTHIER SKIN

DEKA TETRA PRO CO₂ CUSTOMIZABLE CO₂ RESURFACING

The DEKA Tetra PRO is an advanced CO₂ laser offering multiple levels of skin rejuvenation. CoolPeel® delivers lighter, superficial resurfacing with minimal downtime, while deeper CO₂ resurfacing stimulates more intensive collagen remodeling to address advanced lines, wrinkles, texture and sun damage. Every treatment is customized to your skin, goals and desired downtime.

LUTRONIC ULTRA 1927 BRIGHTEN · REFINE · RENEW

The Lutronic ULTRA is a gentle, non-ablative 1927 nm thulium laser that creates microscopic treatment zones to stimulate skin renewal. It improves pigmentation, sun damage, uneven tone, texture and overall radiance with minimal downtime.

TEMPSURE® SKIN TIGHTENING FIRM · SMOOTH · RESTORE

A comfortable, non-invasive monopolar radiofrequency treatment that gently heats the deeper layers of the skin to stimulate natural collagen and elastin production. TempSure helps improve skin laxity, soften fine lines and restore firmer, smoother, more youthful-looking skin with no downtime.

A lifetime of renewed confidence

LASER HAIR REMOVAL

SMOOTH SKIN . LESS MAINTENANCE.

CYNOSURE Elite⁺

POWERED BY CYNOSURE ELITE+™

At The Modern Skin Company, we use the Cynosure Elite+™, a medical-grade dual-wavelength laser system featuring two of the most established wavelengths in laser hair removal.

755 nm
Alex

Highly absorbed by melanin, the Alexandrite wavelength is particularly effective for lighter skin tones and can target finer, lighter-pigmented hair efficiently.

1064 nm
Nd:YAG

The longer 1064 nm wavelength penetrates more deeply with less absorption by epidermal melanin, making Nd:YAG an important option for safely treating darker skin tones and deeper, coarser hair.

Together, these wavelengths give us the flexibility to personalize your treatment rather than relying on a one-size-fits-all approach.

INJECTABLES & SKIN BOOSTERS

REFRESH. RESTORE. ENHANCE

Our approach to injectable treatments is simple: **enhance what is already beautiful while keeping you looking like yourself.**

NEUROMODULATORS

Soften expression lines and wrinkles while preserving natural movement for a smoother, refreshed appearance.

DERMAL FILLERS

Thoughtfully restore lost volume, enhance facial contours and create subtle balance and proportion.

SKIN BOOSTERS

Designed to improve hydration and overall skin quality from within, skin boosters restore a smoother, plumper and more luminous complexion

REFRESHED . BALANCED .
NEVER OVERDONE

One treatment. A lifetime of renewed confidence.

MEDICAL-GRADE SKINCARE

SMOOTH SKIN . LESS MAINTENANCE.

CANADIAN INNOVATION. CLINICALLY PROVEN SKINCARE

Proudly Canadian, Vivier has been at the forefront of medical-grade skincare for more than 25 years. Known for its innovative formulations and pharmaceutical-grade approach.

Vivier combines powerful, clinically proven ingredients with advanced delivery systems to target concerns including aging, pigmentation, acne, redness and uneven texture

COLORESCIENCE PROTECTION THAT DOES MORE

Colorescience bridges the gap between skincare, sun protection and beauty, with advanced mineral formulations designed to protect skin while enhancing its natural appearance. Best known for its 100% mineral SPF, Colorescience offers elegant, wearable protection against environmental stressors while supporting healthier skin.

From their iconic Unforgettable Total Protection Face Shield Flex to tinted mineral sunscreens and complexion-enhancing formulas, Colorescience makes daily sun protection something you will actually want to wear.

ADDITIONAL TREATMENTS

SMALL TREATMENTS A BIG DIFFERENCE

FREEZPEN®

PRECISION CRYOTHERAPY

FreezPen uses targeted cryotherapy to quickly freeze and remove unwanted benign skin lesions with exceptional precision while minimizing damage to surrounding healthy skin.

SKINPEN® MICRONEEDLING

COLLAGEN INDUCTION THERAPY

SkinPen® creates controlled microchannels in the skin, triggering its natural healing response and stimulating new collagen and elastin. It helps improve fine lines, acne scars, enlarged pores and uneven texture for smoother, healthier-looking skin.

HAIR RESTORATION

ULTRA 1927 + DE|RIVE™

DE|RIVE™
HAIR WELLNESS SYSTEM

Our hair restoration treatment combines Lutronic ULTRA 1927 with the DE|RIVE™ Hair Wellness System. ULTRA creates microscopic channels within the scalp, allowing DE|RIVE's targeted hair-supporting ingredients to be applied directly following treatment while supporting healthier-looking, fuller hair.

TARGETED LASER TREATMENTS

WARTS · NAIL FUNGUS · VEIN THERAPY

Nd:YAG wavelength is used to precisely target a variety of concerns. Treatments can address vascular lesions, stubborn nail fungus and suitable warts, with settings customized to the concern and skin type.

THE MODERN PROGRAMS

ADVANCED TREATMENTS - MEDICAL GRADE SKINCARE - REAL RESULTS

Our customized skin programs combine advanced technology, professional treatments and medical-grade skincare to address your skin's changing needs at every age and every stage.

THE MODERN REFRESH

20s-30s | PREVENTION • GLOW • TEXTURE

A proactive approach to healthy, radiant skin. Designed to improve texture, clarity and hydration while addressing early signs of aging and helping protect the skin you have now.

THE MODERN RESTORE

30s-50s | COLLAGEN • LAXITY • TEXTURE

Designed for skin beginning to show visible signs of aging. Restore focuses on stimulating collagen, improving firmness and texture, and softening fine lines while restoring a brighter, refreshed appearance.

THE MODERN TRANSFORMATION

55+ | ADVANCED REJUVENATION

Our most comprehensive rejuvenation program. Transformation combines advanced treatments and medical-grade skincare to address deeper lines, laxity, sun damage and uneven texture for visibly renewed, healthier-looking skin.

THE MODERN EVENT READY

LOOK RADIANT FOR WHAT'S AHEAD

A strategically timed treatment plan designed around your special event. We focus on luminosity, smoothness, hydration and refinement so your skin looks fresh, polished and photo-ready when it matters most.

Because Every Stage Looks Beautiful

ROSACEA & MELASMA

TARGETED TREATMENTS FOR REDNESS & PIGMENTATION

Rosacea and melasma are complex skin concerns that often require more than a single treatment. At The Modern Skin Company, we take a customized approach using advanced technology, professional treatments and medical-grade skincare to improve visible concerns while supporting long-term skin health.

ROSACEA

REDNESS · VISIBLE VESSELS · SENSITIVITY

Rosacea is a chronic skin condition that may cause persistent redness, flushing, visible blood vessels and increased sensitivity. Because triggers and symptoms vary from person to person, treatment is tailored to your individual skin

OUR APPROACH

Reduce the appearance of redness and visible vessels while supporting and strengthening sensitive, reactive skin.

MELASMA

PIGMENTATION · UNEVEN TONE · SKIN CLARITY

Melasma appears as patches of brown or grey-brown pigmentation, most commonly on the cheeks, forehead, upper lip and chin. Hormones, sun exposure and heat can contribute to melasma, making ongoing management and daily sun protection especially important.

OUR APPROACH

Rather than simply targeting visible pigment, we create a carefully planned treatment and skincare program designed to improve overall tone and clarity while minimizing factors that can contribute to recurrence.

CALMER. CLEARER. MORE EVEN-LOOKING SKIN.
