

RECKERS AUTOMATION

An Aryans Group Venture

C A T A L O G U E

AUTOMATION.
CONTROL.
PERFORMANCE.

ADVANCED SOLUTIONS FOR
A SMARTER TOMORROW

Every production line has a moment when everything depends on a single decision.

A motor starts. A conveyor moves. A sensor detects. A controller responds. Thousands of components work together in perfect synchronization. When even one fails, productivity stops.

For over 30 years, Reckers Automation has helped ensure those moments never become interruptions.

We partner with manufacturers, OEMs, and system integrators to deliver automation solutions that improve productivity with **precision, reliability, and confidence.**

Our strength extends beyond the technologies we represent. It lies in understanding every application, recommending the right solution, and providing dependable support long after installation.

Trusted by customers across diverse industries, we have built lasting relationships through engineering expertise, responsiveness, and an unwavering commitment to **customer success.**

As industries evolve, so do we, continuously expanding our capabilities while staying true to the values that have defined us for more than **three decades.**

Because great automation isn't measured by the products you supply. It's measured by the confidence you inspire.

OUR COMPANIES

DIVERSE EXPERTISE. SHARED VISION.

Industrial automation solutions provider with 20+ years of experience and 1000+ customers across 7+ segments.

Leading and diversified project company delivering engineering, procurement, and maintenance solutions.

Empowering individuals through skill development, training and placement initiatives across India.

Advanced solutions in robotics and tinting technologies for industrial automation and beyond.

Building future-ready engineers with industry-aligned education and practical learning.

Committed to rural development and community welfare through education, healthcare and empowerment.

Reckers Automation, trusted partner for industrial automation, control and engineering solutions.

WHY

Why we exist

To keep industries moving without interruption.

Every machine depends on a moment of precision. At Reckers Automation, we exist to make those moments reliable, repeatable and effortless for our customers.

HOW

How we serve

Not by pushing products, but by understanding the application first.

We listen.

We understand the application.

We recommend the right solution.

We support it long after installation.

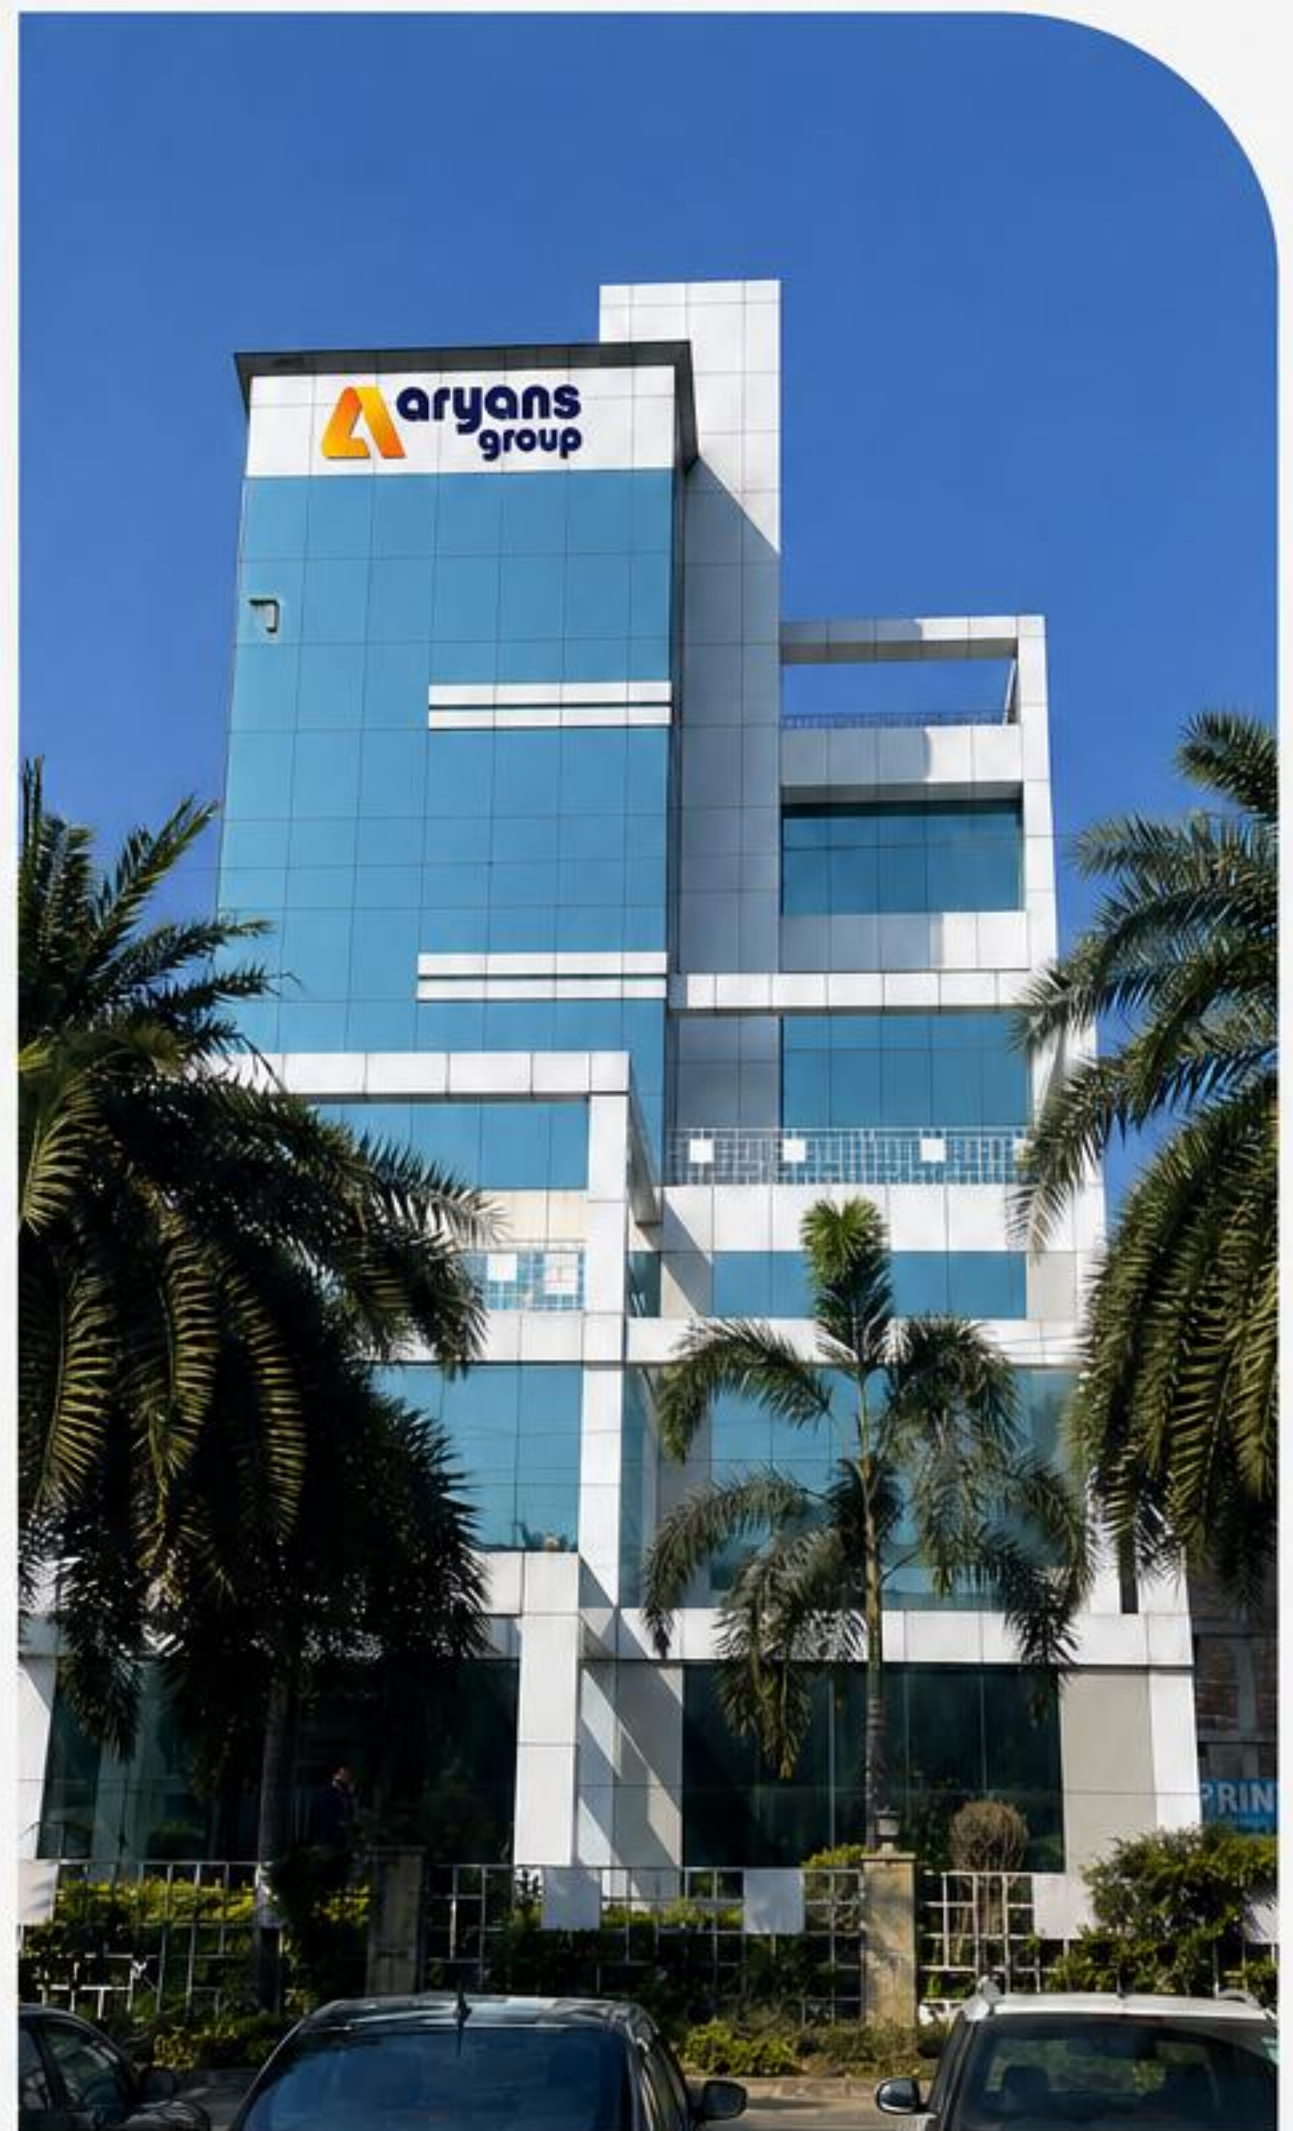

WHAT

What we deliver

Automation products, motion control, instrumentation, networking, panels, engineering support and after-sales service.

30+

years of experience

our corporate office

Our Partners.

World-class technologies. Proven performance.

As an authorized partner (IAD) of Schneider Electric, we offer a comprehensive range of automation solutions that deliver efficiency, reliability and sustainability.

PRODUCT PORTFOLIO

PROGRAMMABLE CONTROLLERS (PLC)

DRIVES & MOTORS

SENSORS & SWITCHES

NETWORK & COMMUNICATION

MOTION CONTROL

SAFETY PRODUCTS

PUSH BUTTONS & SIGNALLING DEVICES

SIGNAL CONDITIONERS

HMIs, SCADA & OPERATOR INTERFACE

Our Partners.
World-class technologies. Proven performance.

As an authorized partner of Raytek, we offer advanced non-contact temperature measurement solutions for industrial applications that demand accuracy, reliability and safety.

PRODUCT PORTFOLIO

INFRARED THERMOMETERS

FIXED INFRARED SENSORS

PORTABLE INFRARED SENSORS

THERMAL IMAGING SYSTEMS

LINE SCANNERS

FIBER OPTIC SENSORS

ACCESSORIES & MOUNTING

PROCESS INSTRUMENTS

SOFTWARE & COMMUNICATION

Our Partners. World-class technologies. Proven performance.

Nidec CONTROL TECHNIQUES

As an authorized partner of Nidec Control Techniques, we offer a comprehensive range of motion control and automation solutions that deliver precision, performance and energy efficiency.

PRODUCT PORTFOLIO

SERVO DRIVES & SYSTEMS

AC DRIVES

DC DRIVES

MOTORS

MOTION CONTROLLERS

HUMAN MACHINE INTERFACE

DIGITAL DC DRIVES

SOFTWARE & TOOLS

OPTION MODULES & ACCESSORIES

Our Partners.
World-class technologies. Proven performance.

As an authorized partner of Teltonika Networks, we deliver reliable and secure connectivity solutions designed for IoT, M2M and industrial applications across the globe.

PRODUCT PORTFOLIO

INDUSTRIAL ROUTERS

INDUSTRIAL GATEWAYS

4G/5G ROUTERS

IoT GATEWAYS

VEHICLE TRACKERS

ASSET TRACKERS

NETWORK SWITCHES

ANTENNAS & ACCESSORIES

REMOTE MANAGEMENT SYSTEM

Our Partners. World-class technologies. Proven performance.

As an authorized partner of Belden, we provide innovative signal transmission solutions that power mission-critical applications in industrial, enterprise and infrastructure environments.

PRODUCT PORTFOLIO

INDUSTRIAL ETHERNET CABLES

CONTROL & INSTRUMENTATION CABLES

FIBER OPTIC CABLES

COAXIAL CABLES

DATA CENTER SOLUTIONS

AUDIO / VIDEO CABLES

CONNECTIVITY SOLUTIONS

CABLE MANAGEMENT

TOOLS & TEST EQUIPMENT

Our Products. Engineered for Performance. Built for Reliability.

RECSLIP SLIP RINGS

RECSLIP Slip Rings are precision-engineered electro-mechanical devices that enable continuous transmission of power, signals and data from a stationary structure to a rotating one. Built for reliability and performance, our slip rings are trusted across industries and applications worldwide.

OUR SLIP RING SOLUTIONS

CAPSULE SLIP RINGS

Compact and lightweight slip rings designed for limited axial space applications.

OPTICAL HYBRID SLIP RINGS

Transmit power, signals and optical data simultaneously with superior performance and low loss.

ETHERNET SLIP RINGS

High-speed data transmission slip rings built for industrial Ethernet applications.

WIND TURBINE SLIP RINGS

Specially designed for wind turbines to ensure reliable performance in harsh environmental conditions.

PANCAKE SLIP RINGS

Ultra-thin design ideal for space-constrained rotary applications.

CUSTOMISED SOLUTIONS

Tailor-made slip ring solutions engineered to meet your specific application requirements.

Precision in Motion.
Power in Every Application.

RECMO
GEAR BOX & GEAR MOTOR

RECMO high precision servo gearboxes and geared motors deliver exceptional performance, accuracy and durability for even the most demanding industrial applications. Engineered for smooth operation, compact design and long service life, RECMO solutions help you achieve greater efficiency and complete control.

OUR GEARBOX SOLUTIONS

PLANETARY SERVO GEARBOXES

High torsional rigidity, high precision and compact design for superior motion control.

RIGHT ANGLE SERVO GEARBOXES

Space-saving right angle configuration with high precision and smooth power transmission.

HOLLOW SHAFT GEARBOXES

Integrated hollow shaft structure for easy installation and optimal system integration.

HIGH RIGIDITY SERVO GEARBOXES

Ultra-high accuracy and rigidity for high dynamic performance and positioning precision.

OUR GEAR MOTOR SOLUTIONS

PARALLEL SHAFT GEAR MOTORS

Compact and efficient gear motors ideal for general industrial applications.

RIGHT ANGLE GEAR MOTORS

High torque, space-saving gear motors for precise and reliable performance.

INLINE GEAR MOTORS

Robust inline design delivering consistent power and efficiency for various applications.

Precision Motion.
Engineered for Maximum Performance.

RECLIN
LINEAR MOTOR

RECLIN Linear Motors deliver high-speed, high-precision, and smooth motion for demanding industrial applications. With a direct drive design that eliminates mechanical transmission components, RECLIN ensures superior accuracy, minimal maintenance, and longer system life. Built for performance. Designed for the future.

OUR LINEAR MOTOR SOLUTIONS

LINEAR ACTUATORS

Compact and efficient linear actuators for precise positioning and high thrust applications.

ELECTRIC CYLINDER ACTUATORS

High-performance electric cylinder actuators for industrial automation and heavy-duty operations.

LINEAR MODULES

Robust linear modules for high-speed and high-accuracy linear motion in compact systems.

IRONCORE LINEAR MOTORS

High thrust density and excellent thermal performance for demanding dynamic applications.

CORELESS LINEAR MOTORS

Cogging-free performance with smooth motion and superior positioning accuracy.

CUSTOMISED LINEAR SOLUTIONS

Tailor-made linear motor solutions engineered to meet your unique motion requirements.

PANEL MANUFACTURING.

PRECISION BUILD.
RELIABLE PERFORMANCE.

Reckers Automation designs and manufactures high-quality electrical control panels that ensure safety, reliability and efficiency for your industrial operations.

OUR PANEL MANUFACTURING CAPABILITIES

CUSTOM DESIGN
& ENGINEERING

SHEET METAL
FABRICATION

WIRING &
ASSEMBLY

TESTING &
QUALITY CHECKS

SAFETY &
COMPLIANCE

ON-TIME DELIVERY
& SUPPORT

PANEL TYPES WE MANUFACTURE

- PLC Control Panels
- Motor Control Centers (MCC)
- Power Control Panels
- APFC Panels
- VFD Panels
- SCADA & HMI Panels
- Distribution Panels (PDB/DB)
- Relay & Instrumentation Panels
- Custom Automation Panels

INDUSTRIES WE SERVE

Powering Progress Across Every Sector

Our advanced automation, motion control and transmission solutions are trusted by industries that drive the world forward.

PACKAGING

AUTOMOTIVE

ELECTRONICS

TEXTILE

PHARMACEUTICALS

FOOD & BEVERAGE

WIND ENERGY

DEFENCE

MEDICAL

MATERIAL HANDLING

CCTV & SURVEILLANCE

MARINE

MINING & METALS

OIL & GAS

ENTERTAINMENT

STEEL & HEAVY INDUSTRY

OUR CUSTOMERS.

We are proud to be the trusted automation partner for leading organizations across industries.

ENGINEERING SERVICES.

SOLUTIONS BEYOND PRODUCTS.

We engineer complete automation systems that improve productivity, precision and long-term reliability.

TECHNICAL ADVISORY

Smarter decisions from the very beginning.

- Application Engineering
- Product Selection
- BOM Optimization
- Energy Audits
- Feasibility Studies

DESIGN & ENGINEERING

Designed for performance.

- System Design
- PLC & HMI Architecture
- Motion Control
- Electrical Design
- Safety Systems

SYSTEM INTEGRATION

Everything works as one.

- PLC Programming
- SCADA Development
- Servo Systems
- Industrial Networking
- Vision Integration

COMMISSIONING

Ready from day one.

- Installation
- Commissioning
- Performance Validation
- Operator Training

LIFECYCLE SUPPORT

Support that never stops.

- Technical Assistance
- Preventive Maintenance
- Spare Parts
- Remote Support
- Annual Maintenance

WHY RECKERS

Built around your process. Not a product catalogue.

- Solution-first engineering
- End-to-end project ownership
- Faster response & local expertise
- Customized automation solutions
- Proven reliability
- Nearly 30 years of industrial experience
