Visiting and Service Animal Policy

Visiting Animals

Non-resident domesticated animals are not allowed on Sanctuary One property unless it is a service animal, or an animal belonging to a potential adopter who has permission from the Operations Manager or Animal Care Manager to visit the property with their animal for the purposes of making sure he or she gets along with the Sanctuary One animal being considered for adoption.

Exceptions to the rule may be granted at the discretion of the Operations Manager or Animal Care Manager.

Service Animals

A service animal is any animal trained to do work or perform tasks for the benefit of a person with a disability. They must remain with the person at all times, be well-mannered, and on a leash/harness.

Title III of the Americans with Disabilities Act mandates that a person with disabilities accompanied by service animals be allowed access to facilities. Service dogs do not need to be certified or identified visually.

Service animals may be legally restricted from entering certain locations on the property where their presence would cause harm or suffering to other animals.
