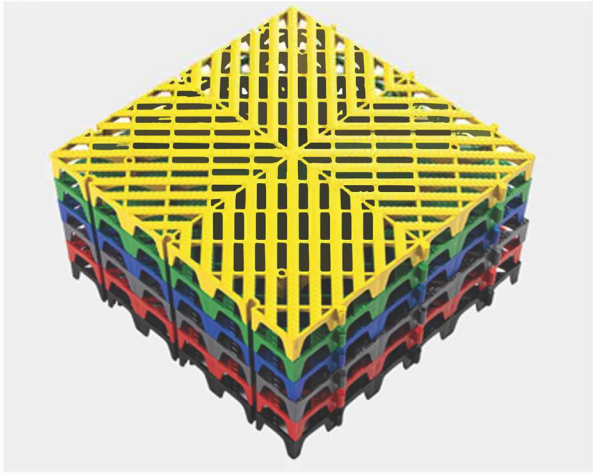
Plastic Splicing Grille

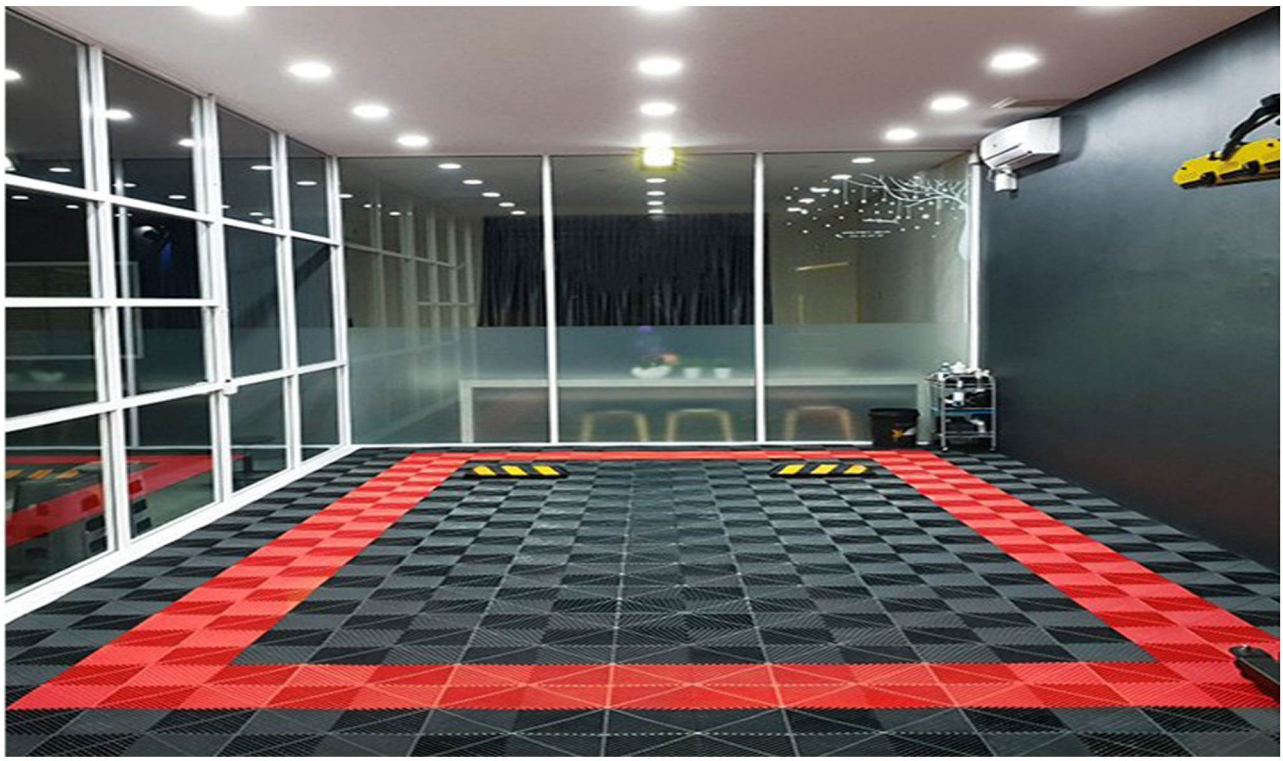
40cm x 40cm x 3cm



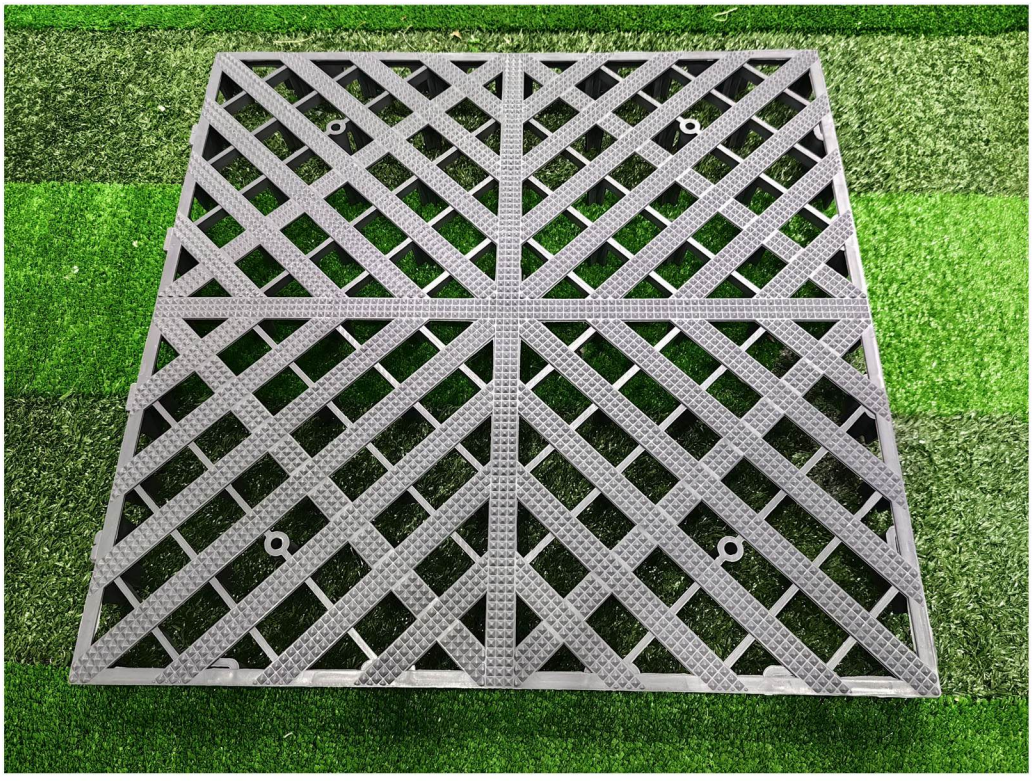
Product size	**: 40cm x 40cm x 3cm**
Side strip size	**: 40cm x 8.5cm x 3cm**
Material quality	**: PP material**
Weight	**: 600g/pc.**
Features	**: Pressure resistance, Drainage, Non-slip**
Scope of application	**: Car wash room, 4S shop, Auto show, Balcony, etc.**
Color	**: Red, Yellow, Blue, Green, Black, Gray**

Plastic Splicing Grille

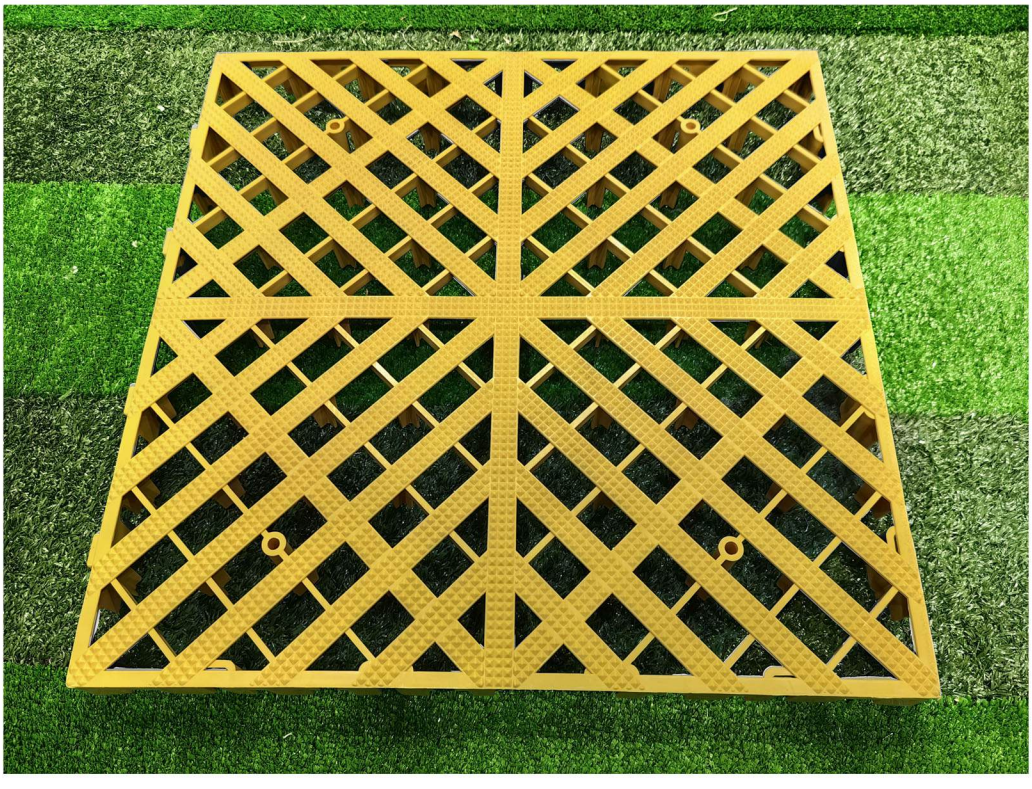
The plastic grille, made from Sinopec's PP material, is designed to be spliced and disassembled. It offers drainage and compression functions and differs from traditional metal grilles by being resistant to electrochemical corrosion when exposed to chemical media. Unlike metal grilles, it won't rust or suffer damage, reducing the risk of unforeseen accidents. This makes it an improved alternative to traditional materials such as iron, wood, and cement.



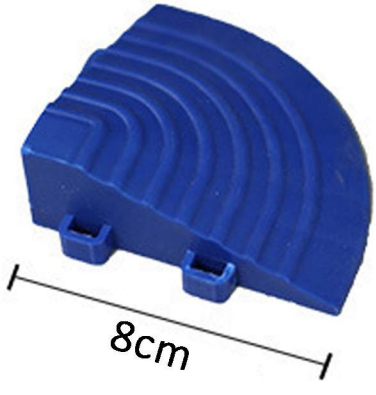
Plastic Splicing Grille



GREY 40CM X 40CM X 3CM



YELLOW 40CM X 40CM X 3CM

Plastic Splicing Grille


* MATERIALS : SINOPEC PP MATERIAL
  BORDER SIZE : 40CM X 8CM X 3CM
  CORNER SIZE : 8CM X 8CM X 3CM
  COMPOSITION : POLYPROPYLENE
  COLOURS : BLACK, YELLOW, BLUE, RED, GREY, GREEN
  PURPOSES : FOR CAR WASH, GARAGE, CAR ACCESSORIES SHOPS
  PROPERTIES : HIGH BEARING LOAD, ANTI SLIP, QUICKLY DRAIN WATER, RESISTANT TO OIL, GREASE AND OTHER CLEANING CHEMICAL
