INDO-PACIFIC SITUATION REPORT

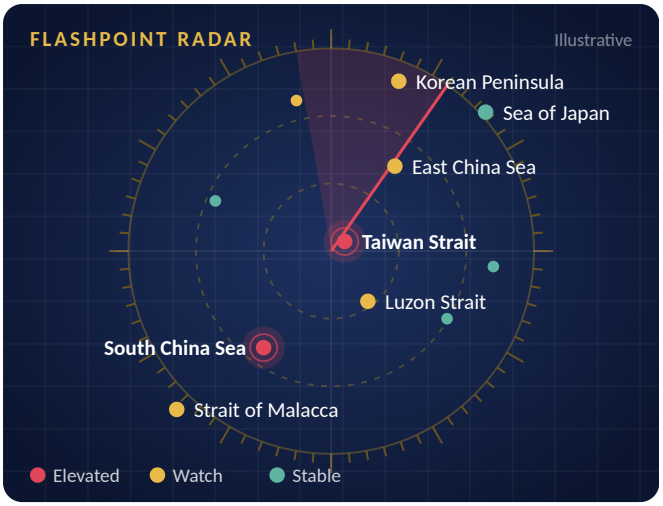

IPS · 印太情報站

Geopolitical risk intelligence for decisions, not debate

See around corners in the Indo-Pacific.

The Indo-Pacific is where the world's capital, supply chains and security commitments collide, and where one misread signal can cost a fortune. IPS is an independent, nonpartisan, open-source intelligence service for people who can't afford to guess: family offices, investors, executives and officials.

> *"Most families discover their exposure during the crisis. We exist so you discover it before."*
